Kavuri AS and Milne A (2021), 'How technology is supporting working capital finance', in *Palgrave MacMillan Handbook of Technological Finance* edited by Raghavendra (Raghu) Rau, Robert Wardrop, Luigi Zingales. Palgrave Macmillan UK.

This website provides real-time bubble indicators for housing markets in the eight Australian capital cities and six primary New Zealand regions. These indicators provide a direct quantitative measure of the extent of housing fever in these major metropolitan areas. The measures are benchmarked against housing and macroeconomic fundamentals to provide a statistical mechanism for assessing the existence and the degree of speculative behaviour in these housing markets.

Statistics

The CAMA working paper '[Liquidity traps in a world economy](#)' written by Robert Kollmann has received the highest number of views on Twitter from 27 April to 27 May 2021.

The top five papers with the highest number of views on the CAMA website from 27 April to 27 May 2021 are:

'[The global macroeconomic impacts of COVID-19: Seven scenarios](#)' written by Warwick McKibbin and Roshen Fernando

'[Global macroeconomic scenarios of the COVID-19 pandemic](#)' written by Warwick McKibbin and Roshen Fernando

'[COVID-19 infections and the performance of the stock market: An empirical analysis for Australia](#)' written by Markus Brueckner and Joaquin Vespignani
